HOUSE BY THE SEA

Private residence - Ewart Investments Limited.

A house by the sea, completely private from the neighboring residential apartments in the same plot. Hence the blank face of the house facing the northern side of the plot towards the residential apartment building. The requirement of a party lawn opening out from the living room led to the decision of locating the swimming pool on the terrace, the third level of the house.

The top level has been planned to be the private floor with the master bedroom opening out into a terrace looking towards the sea. An outdoor bath leading from the bathroom houses a walk in bathtub jacuzzi amidst the green. Library with a reading lounge is accessible to the guest from the central staircase well. The long library opens out on one end overlooking into the living area and further into the sea. The upper level houses the guest rooms and the swimming pool on the terrace.

Scale

11,600 sq.ft.

Status

Completed

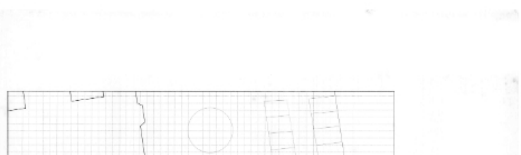

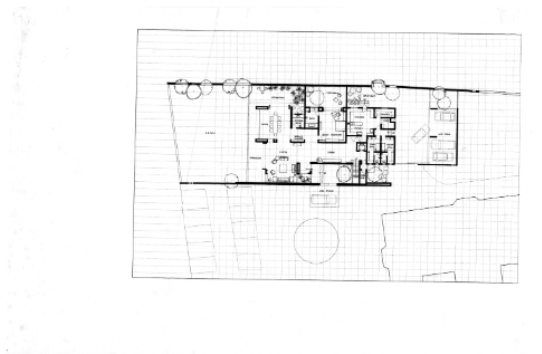

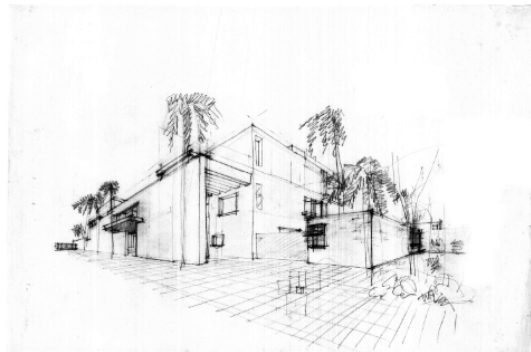

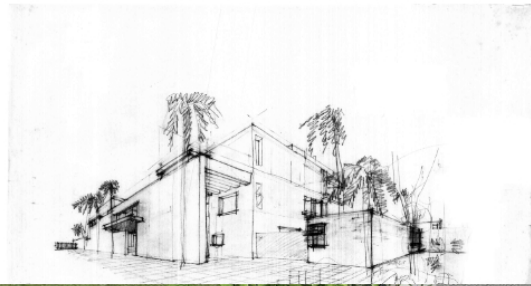

Location

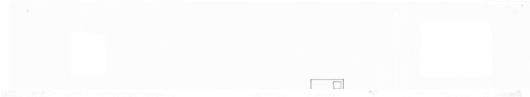

Colaba, Mumbai.
